

Extended Learning Plan

- I. Using surveys of staff and parents, we will gather the following information by April 1, 2021.
 1. The criteria to identify students that are in need of extended learning. For example, grades, test results, parent requests, teacher and counselor recommendations.
 2. The areas where we need to focus our efforts.
 3. The ways we can provide extended learning opportunities that will accommodate parents and students.
- II. Using the information generated from the surveys, we will develop methods for delivering the needed instruction. We will determine who, what, where and when by May 15, 2021.
- III. The plan will take into account cost, feasibility, relevance and personnel. SMART goals will be developed by May 31, 2021.
- IV. We will implement the plan depending on the delivery system before September 3, 2021
- V. We will develop a process to evaluate and measure its success by April 4, 2022.

The survey piece of this plan has already been completed.
